

Standards for Patient Privacy Rules (45CFR Parts 160 and 164)

The following applies within this clinic according to the rules and standards of HIPAA Privacy Rule and these rules will be enforced for seven years or until further notice. No information will be discussed with anyone (including family members) unless permission is given in writing. Release of any information must have a release notification with signature. In regards to minor children or mentally retarded patients that information will be available according to HIPAA guidelines. Any health issues that you need to discuss privately with the Dr or staff should be addressed with the doors closed with the Dr and his assistant in the room. Otherwise, policy in this office for treatment is open door and you are willing to agree with that.
